Home:

The high voltage power lines will have strong radiation and damage health of our residents living near by. The SRP should have enough money to build underground power line. People's health is more important than their money!

End of Complaint

To The Members of the ACC: This letter is in regards to docket number # L-00000B-15-0059-00170. I ask the ACC to approve the Gila River Indian Community (GRIC) route. It is the best option for bringing the extra power needed into the PRC. SRP has done a good job of their community public process and I am pleased with the GRIC route decision after their 2 years of community outreach. My neighborhood is on Germann Road and is a built up, densely populated community. Under no circumstances should it be put back on a proposed route for these power lines.
